DCPS STAKEHOLDER SURVEYS 2011

SPINGARN STAY

Address: 2500 Benning Rd. NE Washington, DC 20002
Grade Levels: Adult Education Cluster: 11 Ward: 5

Letter from your Chancellor…

Dear Parents, Educators, Students, and Community Members,

Thank you for your participation and interest in the 2011 Stakeholder Surveys. In May and June 2011, we surveyed students in grades 5-12, parents, and school staff about their satisfaction with our schools and the district. I am pleased to share with you this summary of the feedback we received.

We hope this report will serve as a tool for principals and staff to engage their school community, and better understand what is working well and what needs improvement. It is only with honest feedback from those of you who know our schools best that we can work effectively to make all of our schools excellent places to learn and work.

Sincerely,

Kaya Henderson,
Chancellor

About this report…

This report begins with an overview of your school's survey results, focusing on important satisfaction questions that were asked of more than one respondent group.

Next, there is a summary page for each respondent group. The summary of student responses is shown first, followed by the parent responses, and then the staff responses. Staff refers to teachers, administrators, and other school-based staff.

The three summary pages highlight key questions and are arranged under four categories from the DCPS Effective Schools Framework:

- **Teaching and Learning:** Does the school emphasize instruction and hold students to high expectations for achievement?
- **Resources:** Does the school have adequate resources for learning, and is it kept in good condition?
- **Family and Community Engagement:** Does the school invest in families and community members to support students?
- **Safe and Effective Learning Environment:** Do the school's policies, procedures, and practices support a safe environment that fosters mutual respect, high expectations, and a focus on teaching and learning?

*For more information on the DCPS Stakeholder Surveys and to access the responses to all questions for this school, please visit **www.dcps.dc.gov/survey.***

* 2011 district-wide parent data on pages 1 and 2 of this report are based on the responses of a representative sample of DCPS parents who were selected to complete the survey over the phone (n=687). For more information and to access the district-wide report, please visit www.dcps.dc.gov/survey.
