\*What is the difference between my school's actual budget and the initial budget allocation?

Whether it's FY13 or FY14, there is an important difference between your school's actual budget and your initial budget allocation. The actual budget is based on actual salaries, whereas the initial budget allocation is based on the average salary of each position.

DCPS uses average position salary as its basic building block for school budgets because it allows principals and school communities to make decisions based purely on the cost of a certain position as opposed to the cost of a certain person.
