Projected 4-10 year old child population change 2014-2020, Neighborhood Cluster 25	87%

Rationale for Proposed Boundary Changes: Maury’s attendance zone absorbs some of the former Gibbs attendance zone in an effort to improve walkability for families. Maury is slightly over capacity, but it does not have a high boundary participation rate or in-boundary enrollment.

Proposed Geographic Destination Feeder Schools (Feeder Pathway): Anyone living in the proposed new boundary for Maury ES is zoned for and has a right to attend Eliot-Hine MS and Eastern HS. Any student attending the school out-of-boundary has the right to continue in the feeder pattern to Eliot-Hine. Proposed feeder pattern changes were made to better align school building capacity with population and with feeder pattern participation rates and to support racial/ethnic and socio-economic diversity, where possible.

Proposed Programmatic Destination School (Feeder Pathway): No programmatic feeder pattern proposed.
