Rationale for Proposed Boundary Changes: Randle Highlands’ attendance zone expands north to absorb some of Kimball; it extends slightly south to absorb a few blocks from Beers as those schools absorb the former Davis zone. Randle Highlands has limited capacity for growth. Low boundary participation rate mitigates concerns for over-crowding in the immediate future.

Proposed Geographic Destination Feeder Schools (Feeder Pathway): Anyone living in the proposed new boundary for Randle-Highlands ES is zoned for and has a right to attend Kramer MS and Anacostia HS. Any student attending the school out-of-boundary has the right to continue in the feeder pattern to Kramer. Proposed feeder pattern changes were made to better align school building capacity with population and with feeder pattern participation rates and to support racial/ethnic and socio-economic diversity, where possible.

Proposed Programmatic Destination School (Feeder Pathway): No programmatic feeder pattern proposed.
