Rationale for Proposed Boundary Changes: Seaton’s attendance zone absorbs much of the former Scott Montgomery and J.F. Cook zones at the east and west. Garrison absorbs some of the boundary on the north in an effort to improve walkability for families. Seaton has excess capacity and can manage this change.

Proposed Geographic Destination Feeder Schools (Feeder Pathway): Anyone living in the proposed new boundary for Seaton ES is zoned for and has a right to attend the New Center City MS (a proposed new stand alone MS) and Cardozo HS. Any student attending the school out-of-boundary has the right to continue in the feeder pattern to the New Center City MS. Until there is a timeline for opening the new MS, families will maintain their current rights to MS based on home address. Proposed feeder pattern changes were made to better align school building capacity with population and with feeder pattern participation rates and to support racial/ethnic and socio-economic diversity, where possible.

Proposed Programmatic Destination School (Feeder Pathway): No programmatic feeder pattern proposed.
