		Mango	Jicama	Heirloom Tomatoes (Sliced for ECE)		
26	27	28	29	30	31	
	Holiday (No school)		Honey Dew	Bell Pepper		

Produce Highlight:

This month, students will explore jicama, also known as Mexican turnip or yam bean. The name "jicama" originates from the Nahuatl word "xicamatl." Due to its crunchy texture and slightly sweet taste, jicama is sometimes referred to as the "Mexican potato" or "Mexican water chestnut" in various regions.

All vegetables served with low-fat dip. Produce marked in green is locally-sourced. Menu is subject to availability.
