

## DCPS Facility Availability, Summer 2019

### Schools Potentially Available to External Summer Program Providers

The following schools may have availability to host summer programs run by external providers who are [vetted and approved](#) by DCPS. Schools *not* listed represent those that are unavailable this summer due to existing DCPS summer programming and/or summer construction projects. Approval to operate in a DCPS facility is at the discretion of the principal. Providers should approach schools to seek approval to use the facility and present their vetting approval letter to a principal to affirm vetting status. Providers are encouraged to consider more than one potential site for their program, as schools may become unavailable if they meet their building capacity. To allow ample time to prepare schools for the summer and upcoming school year, external programs are only able to operate in DCS facilities between **Monday, June 24, 2019** and **Friday, August 2, 2019**.

Providers must send a [Facilities Use Agreement](#) to the Department of General Services Realty Office [realty.applications@dc.gov](mailto:realty.applications@dc.gov) by **April 19, 2019** for summer 2019 consideration. Per existing DC policy (DCMR Rule 5-E3504), facility use fees may be applied.

For additional information on schools, please visit: <http://dcps.dc.gov/external-link/dcps-school-profiles>
