

LEARN AND PLAY AT DCPS!

At DCPS, we know that high quality early childhood education matters! That's why DCPS partners with community-based organizations to operate several infant and toddler child development centers co-located within our schools.

With the support of Mayor Bowser, DCPS plans to greatly expand the number of school-based child development centers over the next several years. Stay tuned!

About The Program

DCPS is home to several infant and toddler child development centers across the District! All centers are operated by OSSE-licensed community partners and offer quality care for children ages 6 weeks to 3 years old. The child development centers located in our elementary schools offer a coordinated and supported transition between infant and toddler programming and PK3. High school based centers allow parenting students to continue reaching their educational goals.
